Statement regarding new state guidelines on Covid-19 virus

March 9, 2020

Essex Library Association is following the recently issued State of Connecticut guidelines for state employees regarding the Covid-19 virus. In particular, the library advises (per the State guideline) that effective today:

For meetings or events with large numbers of people within arm's length of each other, those 70 years old or older, those with cardiovascular disease, diabetes, cancer, heart disease, chronic lung diseases or severely weakened immune systems should dial in or not attend.

The library is currently examining ways to enable videoconferencing participation at our upcoming events. We will update the community with this information.
